USDA Animal Disease Traceability (ADT) requires the following cattle and bison be identified for interstate movement in order to satisfy the rule for ADT:

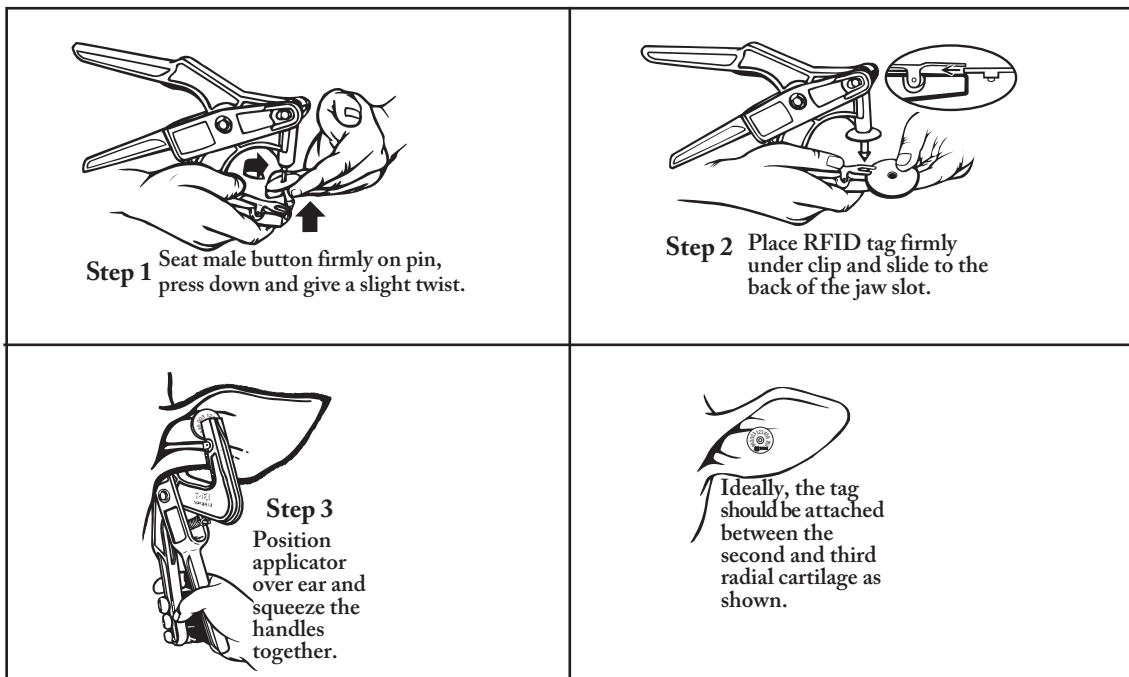

- All sexually intact cattle and bison 18 months of age or over
- All female dairy cattle of any age
- All dairy males born after March 11, 2013
- Cattle and bison of any age used for rodeo or recreational events
- Cattle and bison of any age used for shows and exhibitions

Animal Disease Traceability

Goals:

- Encourage use of electronic identification tags for animals that move interstate under the current ADT regulations ([www.https://www.aphis.usda.gov/traceability/downloads/ADT_summary_revisions.pdf](https://www.aphis.usda.gov/traceability/downloads/ADT_summary_revisions.pdf))
- Enhance electronic sharing of basic animal disease traceability data
- Enhance the ability to track animals from birth to slaughter
- Increase the use of electronic health certificates
