MAX40®
INSECTICIDE CATTLE EAR TAG

Chemical Class: DIAZINON | GROUP 1B | INSECTICIDE

Net Weight: **0.53 oz (15 g) per tag**

ACTIVE INGREDIENTS:	
Diazinon	40%
OTHER INGREDIENTS	60%
TOTAL	100%

Effectiveness:

Controls	Aids to Control
Horn Flies	Face Flies
Gulf Coast Ticks	Lice
Spinose Ear Ticks	Stable Flies
	House Flies

Labeled for use on:

Beef | Non-lactating Dairy | Calves over 3 months

Key facts regarding insecticide tags:

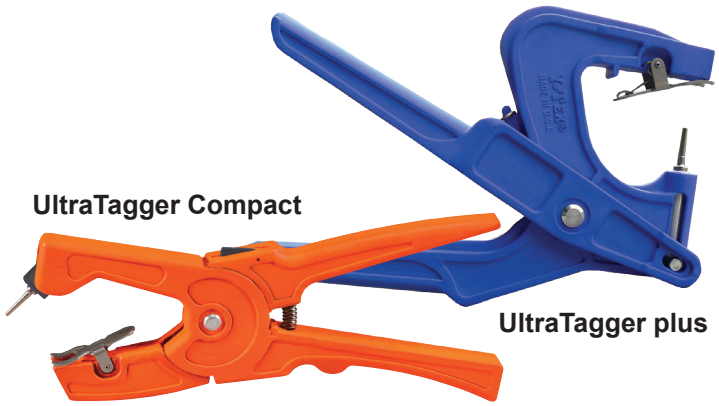

- Insecticides are impregnated within the plastic of the ear tag and slowly release through contact with the animal, providing continuous protection for several months.
- No withdrawal time.
- Apply Y-TEX insecticide ear tags with the Y-TEX UltraTagger plus or UltraTagger Compact applicators.
- For management of insecticide resistance, rotate chemical classes using other Y-TEX insecticide ear tags, according to Y-TEX's recommended rotation program.

Available sizes:

Ranch Pack - 100 Tags
(5 pouches of 20 tags each)
Each tag includes a male button for attachment.

Combo Box - 20 Tags
Each tag includes a male button for attachment.

UltraTagger Compact

UltraTagger plus

The **MAX 40®** Insecticide Ear Tag is a 15-gram, sustained-release ear tag designed to provide long-lasting control of a broad spectrum of external parasites on cattle. A high concentration of diazinon, formulated with a controlled polymer matrix ensures consistent release of insecticide over an extended period for up to 5 months of protection.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reformulation or repackaging of this product is prohibited.

Resistance-management Recommendations. For resistance management, MAX40 Insecticide Cattle Ear Tag contains a Group 1B insecticide. Any insect population may contain individuals naturally resistant to MAX40 Insecticide Cattle Ear Tag and other Group 1B insecticides. The resistant individuals may dominate the insect population if this group of insecticides are used repeatedly in the same herds. Appropriate resistance management strategies should be followed. Monitor after application for unexpected target pest survival. If the level of survival suggests the presence of resistance, consult with your local university specialist or certified pest control advisor.

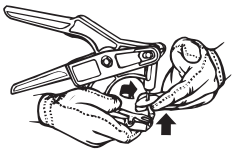

Endangered Species Protection Requirements: It is a Federal offense to use any pesticide in a manner that results in an unauthorized "take" (e.g., kill or otherwise harm) of an endangered species and certain threatened species under the Endangered Species Act section 9. When using this product, you must follow the measures contained in the Endangered Species Protection Bulletin for the area in which you are applying the product. You must obtain a Bulletin no earlier than six months before using this product. To obtain Bulletins, consult http://www.epa.gov/espp/, call 1-844-447-3813, or email ESPP@epa.gov. You must use the Bulletin valid for the month in which you will apply the product.

Reporting Ecological Incidents: To report ecological incidents, including mortality, injury, or harm to plants and animals, call Y-TEX Corporation at 800-443-6401.

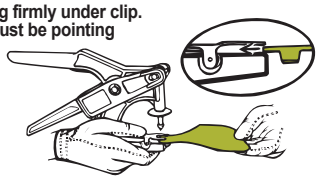

For adequate control of horn flies, attach one tag per animal. For optimum control of horn flies, control of ear ticks, and as an aid in the control of face flies, lice, stable flies and house flies, attach one tag to each ear (two per animal). Replace as necessary. MAX40 tags have been proven to be effective against pyrethroid resistant horn flies for up to five months. Apply as shown with a Y-TEX 2-piece tag applicator (i.e. UltraTagger *plus*). Disinfect tag applicator before use. To minimize development of insecticide resistance in horn flies, remove used tags at the end of the season and follow the recommended tag rotation program. Calves less than 3 months of age should not be tagged as ear damage may result.

Remove tags before slaughter.

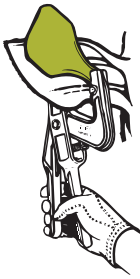

STEP 1
Seat male button firmly on pin, press down and give a slight twist.

STEP 2
Place female tag firmly under clip. Collar on tag must be pointing away from pin.

STEP 3
Position applicator over ear and squeeze the handles together.

The ideal position for male stud is between the second and third radial cartilage as shown.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dark place in original container, away from direct sunlight. Opened bags containing ear tags should be resealed for storage.

PESTICIDE DISPOSAL: Remove tags before slaughter. Securely wrap used tags in a plastic bag or several layers of newspaper and discard in trash.

CONTAINER HANDLING: Non-refillable container. Do not reuse bag. Discard bag in trash, or offer for recycling if available.

FIRST AID

Contains an organophosphate that inhibits cholinesterase.

If on skin or clothing	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes	• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor immediately for treatment advice.
If swallowed	• Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious or convulsing person.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-255-3924 for emergency medical treatment information. Do not give anything to an unconscious person.

NOTE TO PHYSICIAN

This product is a cholinesterase inhibitor. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING May be fatal if absorbed through skin. Harmful if swallowed. Causes moderate eye irritation. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear chemical-resistant gloves made of rubber or any waterproof material (thickness equal to or greater than 14 mils) when applying tags.

Personal Protective Equipment (PPE): Applicators and other handlers must wear:

- Coveralls worn over short-sleeved shirt and short pants
- Socks
- Chemical resistant footwear
- Waterproof gloves

User Safety Requirements: Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations: User should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to birds, fish and other wildlife. Do not apply directly to water. Do not contaminate water by disposal of used tags.

GUARANTEE

*This guarantee is a limited guarantee, limited to the replacement of tags only, if the tags failed after being properly applied, to remain in the animal's ear for a five (5) month period due to breakage or separation from button.

NOTICE OF WARRANTY

To the extent consistent with applicable law, Y-TEX CORPORATION MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of tags only.
