TRI-ZAP®

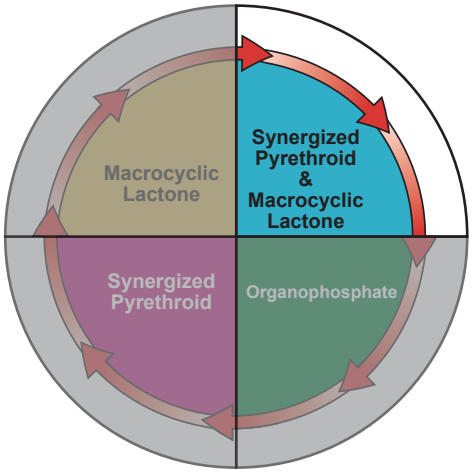

INSECTICIDE CATTLE EAR TAG

Chemical Class:	ABAMECTIN	GROUP	6	INSECTICIDE
	ZETA-CYPERMETHRIN	GROUP	3A	INSECTICIDE

Net Weight: **0.34 oz (9.5 g) per tag**

ACTIVE INGREDIENTS:

Zeta-cypermethrin	3.17%
Abamectin	6%
Piperonyl Butoxide	20%
OTHER INGREDIENTS	70.83%
TOTAL	100%

Effectiveness:

Controls
Horn Flies
Face Flies
Lice
Spinose Ear Ticks

Labeled for use on:

Beef Dairy + Lactating Calves

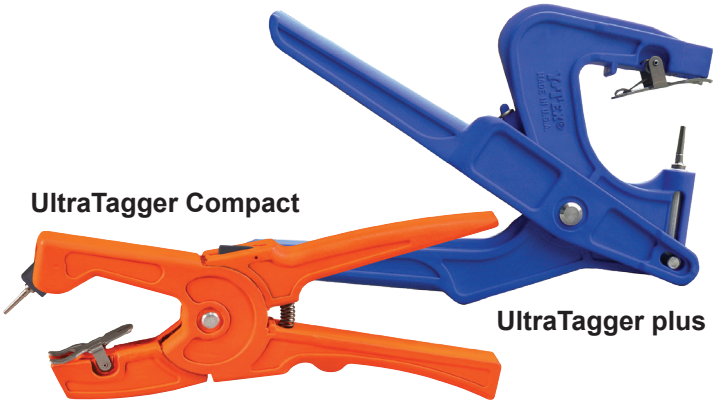

Available sizes:

Ranch Pack - 100 Tags
(5 pouches of 20 tags each)
Each tag includes a male button for attachment.

Combo Box - 20 Tags
Each tag includes a male button for attachment.

Key facts regarding insecticide tags:

- Insecticides are impregnated within the plastic of the ear tag and slowly release through contact with the animal, providing continuous protection for several months.
- No withdrawal time.
- Apply Y-TEX insecticide ear tags with the Y-TEX UltraTagger plus or UltraTagger Compact applicators.
- For management of insecticide resistance, rotate chemical classes using other Y-TEX insecticide ear tags, according to Y-TEX's recommended rotation program.

UltraTagger Compact

UltraTagger plus

TRI-ZAP® Insecticide Ear Tags are formulated with zeta-cypermethrin and abamectin and synergized by piperonyl butoxide, creating a powerful tool for combating a variety of external pests on all cattle, including dairy cows and calves. By integrating two potent modes of action, TRI-ZAP provides extended protection and serves as a key component in a resistance-management program. This 9.5-gram tag protects for up to 4 months and requires no meat or milk withdrawal.

Y-TEX®
Y-TEX Corporation: 1825 Big Horn Avenue, Cody, Wyoming 82414 y-tex.com

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application.

For resistance management, please note that TRI-ZAP Insecticide Cattle Ear Tag contains both a Group 6/Abamectin and a Group 3A/Zeta-cypermethrin insecticide. Any insect population may contain individuals naturally resistant to TRI-ZAP Insecticide Cattle Ear Tag and other Group 6 or Group 3A insecticides. The resistant individuals may dominate the insect population if these insecticides are used repeatedly in the same herds. Appropriate resistance management strategies should be followed. Monitor after application for unexpected target pest survival. If the level of survival suggests the presence of resistance, consult with your local university specialist or certified pest control advisor.

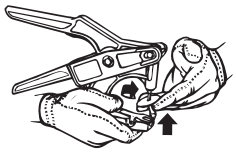

FOR OUTDOOR USE ONLY
Use to prevent feeding and irritation by Horn Flies, Face Flies (mechanical vector of *Moraxella bovis*, the bacterium which causes "Pink Eye" in Cattle), Lice and Spinose Ear Ticks in Beef and Dairy Cattle (including lactating) and Calves.

• **For optimum** control of all pests listed, use 2 tags per animal - 1 tag per ear. (Tag all animals in the herd, including calves, and replace as necessary)

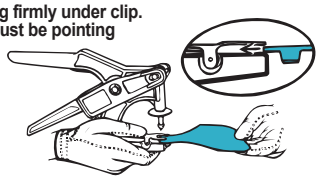

• **For adequate** control of Horn Flies and Face Flies, use 1 tag per animal. (Tag all mature animals in the herd and replace as necessary)

TRI-ZAP prevents feeding and irritation by Horn Flies for up to 4 months with 2 tags per animal and up to 2 months with 1 tag per animal. TRI-ZAP prevents feeding and irritation by Lice and Spinose Ear Ticks for up to 3 months with 2 tags per animal. TRI-ZAP prevents feeding and irritation by Face Flies for up to 2 months with 1 or 2 tags per animal. No withdrawal period for meat or milk. To minimize development of insecticide resistance, remove used tags at end of season and follow the Y-TEX recommended tag rotation program. Remove tags before slaughter.

STEP 1
Seat male button firmly on pin, press down and give a slight twist.

STEP 2
Place female tag firmly under clip. Collar on tag must be pointing away from pin.

STEP 3
Position applicator over ear and squeeze the handles together.

The ideal position for male stud is between the second and third radial cartilage as shown.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dark place in original container, away from direct sunlight. Opened bags containing ear tags should be resealed for storage.
PESTICIDE DISPOSAL: Remove tags before slaughter. Securely wrap used tags in a plastic bag or several layers of newspaper and discard in trash.
CONTAINER HANDLING: Non-refillable container. Do not reuse bag. Discard bag in trash, or offer for recycling if available.

FIRST AID

This product contains abamectin, a macrocyclic lactone; zetacypermethrin, a pyrethroid insecticide; and piperonyl butoxide, a mixed-function oxidase inhibitor.

If swallowed

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-255-3924 for emergency medical treatment information. Do not give anything to an unconscious person.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING

May be fatal if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear: Long-sleeved shirt and long pants, socks, shoes, and rubber or non-permeable protective gloves when applying tags.

Personal Protective Equipment:
Applicators and other handlers must wear:
- Long sleeved shirt and long pants
- Shoes plus socks
- Chemical resistant gloves made out of barrier laminate, polyethylene, butyl rubber ≥ 14 mils, nitrile rubber ≥ 14 mils, neoprene rubber ≥ 14 mils, natural rubber ≥ 14 mils, polyvinyl chloride ≥ 14 mils, or viton ≥ 14 mils.

User Safety Recommendations:
- User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- User should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

Follow manufacturer's instructions for cleaning/maintaining personal protective equipment (PPE). If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

GUARANTEE

*This guarantee is a limited guarantee, limited to the replacement of tags only, if the tags failed after being properly applied, to remain in the animal's ear for a four (4) month period due to breakage or separation from button.

ENVIRONMENTAL HAZARDS

This pesticide is **extremely** toxic to fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean water mark. Do not contaminate water when disposing of equipment wash waters, rinsate, or by disposal of used tags. Use this product only as specified on this label.

NOTICE OF WARRANTY

To the extent consistent with applicable law, Y-TEX CORPORATION MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of tags only.
